Resume created on DoYouBuzz

EXPERIENCES

IT Project Manager

Paris Saint-Germain Academy USA / International Center of European Football - Since September 2017 - Full-time - Miami - United States - Florida

- Plan development and timelines of 20+ soccer IT projects.
- Assign tasks and lead the technical team, including outsourced staff.
- Lead the recruiting process for Web developers.
- Work closely with the design, marketing, and sales team in an agile and fast-paced environment.
- Report to the CEO and COO of the organization.

Senior Full-Stack Web Engineer

Paris Saint-Germain Academy USA - June 2015 to August 2017 - Full-time - Miami - United States - Florida

- Oversee performance and security of 6 different Linux servers (LAMP/LEMP), including high traffic server management (25K+ unique visitors per day).
- Developed and currently maintain 20+ WordPress websites including Strive Football Group (strivefootballgroup.com), PSG Academy USA (psgacademyusa.com), PSG Academy Pro (residency.psgacademyusa.com), PSG Academy Florida (psgacademyflorida.com), ICEF (theicef.com) and FC Miami City (fcmiamicity.com).
- Supported business growth by automating payments: developed 10+ complex payment systems that allow the company to handle online payments, application forms, emailing, and surveys.
- Developed RSVP application system allowing segmented customers to confirm their participation in an event.
- Implemented different marketing tools and the #1 soccer team management mobile app in the company.

Full-Stack Web Engineer

ProExpert - September 2013 to March 2015 - Full-time - Miami - United States - Florida

- PROEXPERT, reference software for Home Inspectors
- Managed the architecture and system administration of Linux servers (LAMP).
- Improved and maintained several Web and mobile applications.
- Wrote specifications and user documentation.
- Led initiatives for customer support.
- Reported to the CEO of the organization.

.NET Consultant Intern

SoftFluent - September 2012 to August 2013 - Internship - Paris - France

- SoftFluent is an innovative software company founded in 2005 by Microsoft veterans, former consultants of Microsoft Consulting Services. Gold Partner Microsoft.
- Client: Microsoft Technical Center (MTC)
  Developed a Windows 8 application for Microsoft. This application, visible in Microsoft Technical Center, consumes SharePoint web services enabling users from the center to have better visibility on upcoming events. In addition, it is also possible to view a list of contacts on the new Windows 8 interface (Modern UI).
- Client: Microsoft Business Innovation Center (MBIC). Developed a Windows 8 application for sales rep of the Microsoft Business Innovation Center. The application consumes SharePoint Web services and allows users to view the catalog of applications from the center benefiting of the Windows 8 experience. With the backup cache data, the user navigating in the application can, play videos and view the catalog of applications while disconnected from the SharePoint server.
- Client: STIME - Les Mousquetaires
  Developed a Windows 8 application for STIME managers. The Windows 8 application, deployed on touch tablets, allows users to order fresh produce, mainly fruits and vegetables, and seafood. Because the application runs with a backup cache data, the user can see, order and edit the desired products in the warehouse, this without network coverage. To send orders to suppliers, the tablet is obviously connected to the Internet.

EDUCATION

Master's Degree in Computer Science

EPITECH Paris (France)
September 2011 to August 2013

Epitech has solidified its reputation as a leading educational institution transforming a passion for computer science into expertise, opening doors to high-potential employment opportunities comparable to those enjoyed by graduates from the elite French Universities, also known as the "Grandes Ecoles" (96% employment rate after graduation). Business demands functional education based on the innovative Epitech model, which is built upon three qualities that are increasingly required in the workplace: adaptability, self-development and a sense of project management.

Bachelor's Degree in Computer Science

EPITECH Nantes (France)
October 2008 to August 2011
